Corporate Profile

Wenzhou Zhengyuan Electronic Co., Ltd. is a high-tech enterprise specializing in the R&D, production, and sales of electrical measurement tools. Founded in 2008 and with 18 years of deep industry experience, the company has become a leading domestic manufacturer of test pens and multimeters, recognized for its specialized production, automated manufacturing, rigorous quality control, and continuous innovation. Its products are exported to markets across Europe, Southeast Asia, and South America.

Core Business & Products:

The company primarily manufactures digital multimeters and high-precision intelligent test pens, which are widely used in power maintenance, industrial servicing, and DIY applications. Leveraging mature production processes and technical expertise, the product range covers everything from basic to intelligent measuring instruments, meeting diverse precision measurement needs.

Certifications & Quality Assurance:

Zhengyuan Electronics regards quality as its top priority and strictly adheres to international standards: **Authoritative Certifications:** All products have obtained EU EMC, LVD, and RoHS certifications, complying with global safety and environmental regulations. **Rigorous Quality Inspection:** A comprehensive quality management system is in place, with each product undergoing 12 inspection procedures from raw material intake to finished goods, ensuring stable performance and accurate readings. **Automated Production:** The factory is equipped with high-precision automated production lines and intelligent testing equipment, enabling precise control over key processes. Annual production capacity exceeds one million units, ensuring delivery efficiency and product consistency.

Technological Innovation & R&D Strength:

Driven by technology, the company has built a strong competitive edge: **Intellectual Property:** Holds multiple national patents (including invention patents) covering circuit design, structural innovation, and functional features, ensuring core technology autonomy. **Rapid Development Capabilities:** A dedicated R&D center with a senior engineering team enables customized solutions, with an average of 5+ new products launched annually. **Industry-Academia Collaboration:** Partners with universities and research institutes to explore advanced measurement technologies and drive intelligent product upgrades.

Market Presence & Customer Service:

Zhengyuan Electronics' products have successfully entered major international markets including Europe, Southeast Asia, and South America, serving well-known electrical brands and distributors. Adhering to a customer-centric service philosophy, the company offers: **Flexible Cooperation Models:** OEM/ODM customization with rapid order response; an 18-year source factory specializing in OEM/ODM. **Monthly Output of 500,000 Units:** Capable of handling urgent large-volume orders. **Global Service:** A localized after-sales support system ensures prompt response to customer needs. **Continuous Value Creation:** Through technological upgrades and cost optimization, the company delivers high-value, cost-effective product solutions.

Vision & Mission:

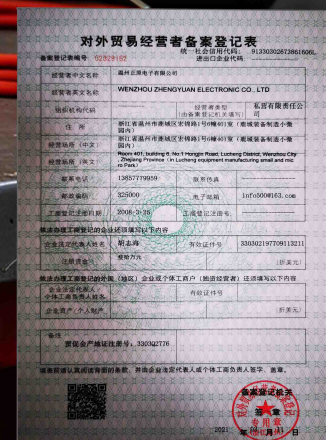

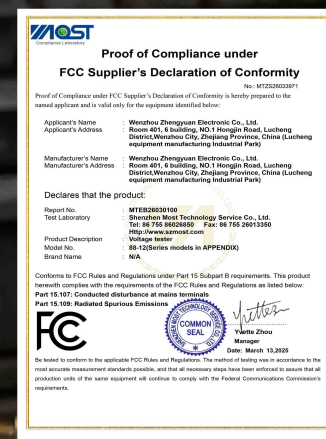

Looking ahead, Wenzhou Zhengyuan Electronics will continue to focus on the electrical measurement field, driven by technological innovation and underpinned by quality, striving to become a globally trusted provider of electrical tool solutions, ensuring every measurement is precise and reliable.

88-2 DIGITAL VOLTAGE TESTER

Safe, Accurate, Easy to Use

PRODUCT INFORMATION

1. Material: Imported ABS.
2. The head is using 45 medium-carbon steel and with 48°C quenching.
3. The inspection is according to GB8218-2003.
4. The sampling standard is according to GB8218-87 5-4.
5. SGS certification, CE detection number: SHEM10100002901
6. Function: test voltage.

Test range 12-220V max250V

PACKING

- Packing: blister card
- Packing quantity: 500pcs/ctn
- Carton size: 59 x 23 x 46.5cm

QUALITY CERTIFIED: SGS Certification, CE Approval

PRODUCT INFORMATION

- Material: AS.
- The head is A3 Carbon Steel.
- The inspection is according to GB8218-2003.
- The sampling standard is according to GB8218-87 5-4
- SGS certification, CE detection number: SHEM110400049801
- Function: Test voltage; Test range: 6-24V

PACKING

Packing: blister card
Packing quantity: 250pcs/ctn
Carton size: 44x32x54cm

VD10 Multi-function Inductive Alarm Voltage Tester

Non-contact inductive voltage tester with alarm and flashlight. Safely detects AC voltage in cables, switches, switches and electrical equipment.

Non-contact Inductive Detection: Detects AC voltage without direct contact for safe operation.
Audible & Visual Alarm: Buzzer alarm and LED indicator when voltage is detected.
Built-in Flashlight: Bright LED light for use in dark or low-light environments.
Wide Test Range: Test voltage range from 90V to 1000V AC.
Durable & Reliable: Made of imported ABS material, compact and easy to carry.

VD02 Inductive Alarm Voltage Tester

Non-Contact Detection
Inductively detects AC voltage without touching the wire

Wide Voltage Range
Tests AC voltage from 90V to 1000V

LED Light Alert
Bright red LED and buzzer alarm when voltage is detected

Durable & Reliable
Made of imported ABS plastic for long service life

1808 VOLTAGE TESTER

Reliable • Durable • Safe

ACCURATE DETECTION, ENSURE ELECTRICAL SAFETY

- SAFE**
Accurate detection for piece of metal
- DURABLE**
High-quality materials for long-lasting use
- COMFORTABLE GRIP**
Ergonomic handle for a secure hold
- WIDE APPLICATION**
Suitable for home, industrial and automotive use

TEST VOLTAGE
100-500V

PRODUCT INFORMATION

1. Material: Imported AS.
2. The head is using 45 medium-carbon steel and with 48°C quenching.
3. The inspection is according to GB8218-2003.
4. The sampling standard is according to GB8218-87 5-4.
5. Function: test voltage; Test range: 100-500V

PACKING

1809 VOLTAGE TESTER

100-500VAC

ACCURATE DETECTION, SAFE AND RELIABLE

- SAFE**
Insulated handle for enhanced protection
- ACCURATE**
Precisely test voltage within 100-500V
- DURABLE**
High-quality steel head, sturdy and wear-resistant
- STANDARD**
Manufactured and inspected according to national standards

PRODUCT INFORMATION

1. Material: Imported AS.
2. The head is using 45 medium-carbon steel and with 48°C quenching.
3. The inspection is according to GB8218-2003.

- 10PCS color packaging
- 0.000V/0.000V/0.000V
- Packing size: 85 × 245 × 100mm

PRODUCT BRIEF
Socket Tester Outlet Receptacle Tester Automatic Electrical Power Circuit Polarity Voltage Detector Open Ground Open Hot, Open Neutral, Hot and Ground Reverse, Hot and Neutral Reverse.
A must for electrician and DIYer to rapidly detecting whether the socket's wire connection is correct or not. Design with RCD/GFCI Test Button. It can test the protection system to ensure the household electrical safety. Perfect for protect your security against the risk of electric shock. Gift for your family.
Includes five different patterns for you to read: Correct, Missing Earth, Live Earth Reverse, Live Neutral Reverse, Missing Neutral. The fault chart provides a clear indication that you can quickly understand and use it.

DIY design

CRAFTED ELECTRICAL TOOLS

BUILT FOR HOME REPAIR AND DIY PROJECTS

DURABLE PRECISE SAFE

Three in one wristband

Intelligent anti-static, lighting, and mosquito repellent
—Multi scenario security protection and convenient life companion

Wear in car

Aromatherapy opens to refresh and prevent drowsiness

Static elimination core component	Neon lamp (working voltage 100-500V, glow discharge produces ions), energy storage capacitor (2nf), current limiting resistor (1.5M Ω) to control safe current)
Main material	Food grade silicone strap+ABS+PE engineering plastic body (waterproof grade IP54, splash proof)
size	Adjustable strap length 14-22cm (suitable for adult /adult wrist); Main body length 46.5mm, width 18.2mm, thickness 17mm
weight	About 20g (including battery)
endurance	Lithium battery (built-in) • Standby time of 10 days • Lighting duration: 30 minutes
Charging method	Charging USB Type-C interface (with included charging cable), fully charged in about 0.5 hours
Operating Temperature	-10 $^{\circ}\text{C}$ ~50 $^{\circ}\text{C}$ (It is recommended to avoid prolonged use in extreme high temperature environments)
Static elimination range	Within a radius of 0.5 meters (effective immediately upon contact with metal/clothing)
Effective range of mosquito repellent	Within a radius of 1 meter (stationary state, slightly attenuated during dynamic movement)

NEW DESIGN

PATENT PROTECTION

Intelligent power measurement mode

Multiple emergency lighting

Portable application tools

Strong magnetic adsorption

Invisible support frame

LIVE/NEUTRAL JUDGMENT

WIRING SAFETY IS ESSENTIAL

Voltage tester safely identifies live and neutral wires with clear audible and visual alerts

LIVE

Live wire alert shows red light

NEUTRAL

Neutral wire alert shows green/yellow light

HIGH SENSITIVITY ONE-KEY SWITCH

Hold the tester and bring the tip close to the power line.
The indicator flashes and the buzzer beeps.

Strong electric field produces rapid beeps,
Weak electric field produces slow beeps.

WEAK

STRONG

OUTDOOR MOBILE LIGHTING WITH MAGNETS

INDUCTIVE ELECTRICAL MEASUREMENT

COMES WITH CROSS AND FLAT SCREWDRIVER STEMS

SUPPORT FRAME

Model: WILK301 Induction lighting voltage tester

- TEST RANGE: ABOUT 12-1000V/DC (HIGH SENSITIVITY)
- ABOUT 48-1000V/AC (LOW SENSITIVITY)
- INDUCTION FREQUENCY: 50/60HZ
- ALARM MODE: AUDIBLE AND VISUAL ALARM
- AUTOMATIC SHUTDOWN: AUTOMATIC SHUTDOWN WITHOUT OPERATION FOR ONE MINUTE
- LOW BATTERY PROMPT: WHEN THE BATTERY POWER IS LOWER THAN 2.6V, THE SOUND PROMPT WILL BE GIVEN, AND IT WILL AUTOMATICALLY SHUT DOWN AFTER STARTING

Part #	Description
WILK301	Outdoor mobile lighting + induction measurement voltage + screwdriver rod + support frame

TESTS	DESCRIPTION
✓	AMBIENT TEMPERATURE: 0 $^{\circ}\text{C}$ ~70 $^{\circ}\text{C}$ (32 $^{\circ}\text{F}$ ~158 $^{\circ}\text{F}$) $\pm 2^{\circ}\text{C}/\pm 4^{\circ}\text{F}$
✓	NCV SENSITIVITY ADJUSTMENT: KEY SWITCH
✓	ZERO-FIRE LINE JUDGMENT: ACCORDING TO THE WEAK VOLTAGE
✓	SIGNAL: THE STRONG VOLTAGE IS THE LIVE LINE
✓	BREAKPOINT JUDGMENT: SINGLE-STRAND LINE ELECTRIFICATION
✓	JUDGMENT: JUDGE THE POSITION ACCORDING TO THE ALARM SIGNAL
